Professional Summary

Aspiring front-end developer with a passion for creating responsive, user-friendly web interfaces using HTML, CSS, and JavaScript. Eager to contribute to dynamic teams and grow as a React developer.

Skills

- HTML, CSS, JavaScript
- React, Redux Toolkit, Tailwind
- GitHub
- C, C++

Projects:

1.Amazon Landing page with cart and order functionality:

Technologies Used: HTML, CSS, JavaScript

Built a simplified front-end landing page of Amazon's homepage and product layout with responsive design and styled components along with cart and order summary functionality.

2.Dice Rolling Simulator:

Technologies Used: HTML, CSS, JavaScript

A small web app that simulates a dice roll using random number generation and DOM manipulation.

3.ToDoApp:

Technologies Used: HTML, CSS, JavaScript, React

Simple productivity tool that helps users manage and organize their tasks efficiently. It allows users to create, view, update, and delete tasks they need to complete
